

# Model : CPS0404/CPS1810/CPS1820

## Centralized Power Supply with Metal Casing

CPS0404

CPS1810

CPS1820

### Key Features

- ▶ **General Protection:**  
Each output has individual PTC fuse and LED indicator, when problem occurs, only affect the individual output, other outputs still working
- ▶ **Circuit Short Protection:**  
When short condition occurs, individual PTC fuse will open the circuit, when condition removed, PTC fuse will automatically back to close.
- ▶ **High Voltage Protection**  
When high voltage occurs, the surge protection will be hit through to protect the connected device.
- ▶ **Over Current Protection**  
When over current occurs, the power supply will automatically switch to self-protection status, when condition re-moved, then switch back to normal

	CPS0404	CPS1810	CPS1820
Channel	4ch individual output with PTC fuse protection (resettable)	18ch individual output with PTC fuse protection (resettable)	18ch individual output with PTC fuse protection (resettable)
Ampere	4A Power Capacity	10A Power Capacity	20A Power Capacity
Output Voltage	DC 12V +/-5%	DC 12V +/-5%	DC 12V +/-5%
Fuse Rating	1.25A	1.1A	2.0A
Weight	1.32Kgs	2.3Kgs	3.1Kgs
Dimension (HxWxD)	205x190x66mm	242x204x85mm	255x262x77mm
